#### **English Writing :**

- Continue on with your small diary account each day of "My Life during the Covid 19 Closure" (Monday to Friday only)
- Narrative Writing – April and May are our designated months for us to move onto the narrative writing genre. So to start with we will use a table like the one below (you can draw it out in your copy) to plan your narrative writing. I want you to decide where and when your story will be set, who will be in it, what it will be about and how it will end. Do not worry about getting a title for the story. We can do that at the end. Just try to get your ideas onto the planning page.

## Map It Out

Use a story map to help plan a narrative paragraph before you begin writing.

Draw pictures to complete the map. Then use it to write a narrative paragraph.
